

The Cornell Lab Young Birders Event

The Cornell Lab of Ornithology is excited to host The Cornell Lab Young Birders Event, which will be held July 6-9, 2017 in Ithaca, New York. The Young Birders Event brings together teenagers with a passion for birds who are interested in pursuing a career that involves birds across a broad array of disciplines. You'll meet people who have successful careers that involve birds across a variety of fields including genetics, quantitative ecology, computer science, statistics, education and multimedia. High school-aged young birders (students entering grades 9-12 in the fall) are invited to fill out our application form and return it for review by March 15th 2017. Sixteen young birders will be selected and notified in early April. Preference is given to students entering 12th grade and students who have previously applied.

The Young Birder's Event will feature:

- two days of field trips
- presentations by Cornell Lab of Ornithology staff including professors, researchers, and students who will share various ways to incorporate birds into a career
- eBird and field notes workshop
- sound recording workshop
- tour of Cornell Lab including the Macaulay Library and Museum of Vertebrates
- dinner with Cornell Lab directors and staff

Application Deadline: March 15th 2017

Tuition: \$600 *Travel expenses to and from Ithaca are not covered in the tuition.*

Meet Chris Wood and Jessie Barry, the primary leaders for the event:

Chris Wood is the Assistant Director of Information Science, helping lead eBird, Birds of North America, and Neotropical Birds. He's a Colorado native who's been birding since he figured out he couldn't find dinosaur fossils in his sandbox.

Jessie Barry is Program Manager for the Macaulay Library and helps lead Merlin, a bird ID app. Jessie's grew up in Rochester, NY where she began birding at age ten.

Chris and Jessie had numerous opportunities as young birders and are thrilled to use this event to showcase opportunities for the next generation of leaders in ornithology.

We make it visible.

The The Young Birders Event is sponsored by **Carl Zeiss Sport Optics**, Princeton University Press and Wild Birds Unlimited.

The Cornell Lab Young Birders Event

Application Form

Please email your responses to the questions below to Jessie Barry, jb794@cornell.edu.

Applications must be received by March 15, 2017. This is a very competitive application process. We strongly suggest you allow yourself enough time to carefully craft and review your responses. We look forward to receiving your application! Applicants will be notified in early April.

Name:

Email Address:

Street Address:

Date of birth:

Gender:

Present grade in school:

Current GPA:

Please respond to questions 1-5 by writing no more than 250 words per question.

1. Why are you interested in attending this event?

2. Tell us about your interest in birds. (Include how you became interested in birds.)

3. How often do you go birding? What do you do when you go? (For example, do you enter your sightings in eBird, sketch the birds you see, conduct a Breeding Bird Survey route, census a Breeding Bird Atlas block, participate in or lead field trips?)

4. What role do you expect birds to play in your life in the future?

5. Do you promise to generally behave yourself and not do anything during the event that would get Chris and Jessie in trouble?

6. Rank from 1-5 the topics that most interest you

__ Sound Recording

__ Ornithological Research

__ Neotropical Birds

__ Nocturnal Flight Calls

__ Computer Science

Other: _____

If you are in need of financial aid to attend the event, upon receiving notification that you have been accepted please contact us. We will gladly help coordinate with your local bird club to offer you a scholarship.
